**WE PUBLISH MATERIALS TO SUPPORT CATHOLIC  
SCHOOL ADMINISTRATORS**

Dear Catholic School Administrator,

*The main purpose of Catholic Leadership Services is to support the Catholic School Administrator.* Our goal is to act in partnership with you to continue providing quality Catholic education for each student. How do we do that? Review the following::

1. We save you time, money and energy by researching the very best in educational articles, trends, innovations and then put that information on our website for you to use as needed for your unique school. Our website is updated daily.
2. We save you time and money by researching any topic you want. That's right; we research any topic you want. You provide us the topic and information on what you want researched and we do the work. Our staff saves you many hours of work and money. We research until you are satisfied.
3. The 2012-2013 issues include special bonus features on Publicizing and Marketing the Catholic School. When Catholic Leadership Services started, literature was sent to 17,000 Catholic Elementary and Catholic High Schools. Today we have 7,000 elementary and Catholic High schools. Increased tuition is one factor, but not the whole story. Learn to promote your school. Recent scandals in our Catholic Church have hurt all of us. We need to regain the confidence of the Catholic people. Together we can!
4. Our website provides you with information on instructional strategies, trends in education, leadership issues, marking materials, evaluation tools, challenging ideas, curriculum development and spiritual growth activities along with inspirational articles.
5. One theme each month is leadership. Tips on continuing to be an effective leader. Management styles that work. As the administrative leader you need to review and revise your management style and investigate leadership techniques. Let us help you be an even more effective manager.
6. All the materials on our website are for your personal use. Download and rework each publication to suit your unique situation. Make as many copies as needed for
